Marisa, you are unlikely to be a carrier

Each child is unlikely to have a disease we've tested for.

Cystic Fibrosis
Characterized by impaired lung and digestive function due to thick, sticky mucus. The disease typically worsens over time and currently has no cure.

Usher Syndrome Type 1 (USH1)
Complete hearing loss from birth, problems with balance and progressive loss of sight starting before puberty.

GJB2 Related hearing loss
Hearing loss that varies from mild to profound, is typically present at birth, and does not worsen over time.

Maple Syrup Urine Disease

Limitations

This test is not able to guarantee your children will or will not inherit a disease but rather provide awareness to the likelihood of a child having a disease tested for.

Read the limitations of this test to understand what is and is not covered.
